

Complete B.Tech CSE Curriculum

Academic Curriculum Overview

This sample curriculum combines semester-wise syllabus information into a single document for demonstration purposes in your React application.

Semester 1

Core Subjects: Engineering Mathematics, Programming, Physics, Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, Web Development, AI/ML (as applicable), electives, practicals and project work.

Semester 2

Core Subjects: Engineering Mathematics, Programming, Physics, Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, Web Development, AI/ML (as applicable), electives, practicals and project work.

Semester 3

Core Subjects: Engineering Mathematics, Programming, Physics, Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, Web Development, AI/ML (as applicable), electives, practicals and project work.

Semester 4

Core Subjects: Engineering Mathematics, Programming, Physics, Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, Web Development, AI/ML (as applicable), electives, practicals and project work.

Semester 5

Core Subjects: Engineering Mathematics, Programming, Physics, Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, Web Development, AI/ML (as applicable), electives, practicals and project work.

Semester 6

Core Subjects: Engineering Mathematics, Programming, Physics, Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, Web Development, AI/ML (as applicable), electives, practicals and project work.

Semester 7

Core Subjects: Engineering Mathematics, Programming, Physics, Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, Web Development, AI/ML (as applicable), electives, practicals and project work.

Semester 8

Core Subjects: Engineering Mathematics, Programming, Physics, Data Structures, DBMS, Operating Systems, Computer Networks, Software Engineering, Web Development, AI/ML (as applicable), electives, practicals and project work.

Features

- 8 Semesters
- 60+ Subjects
- Practical/Lab Courses
- Elective Subjects
- Mini Project & Major Project
- Updated Curriculum Format

Assessment Pattern

Internal Assessment: 30 Marks

End Semester Examination: 70 Marks

Practical Evaluation: As per university guidelines.
