

SAMPLE UNIVERSITY EXAMINATION PAPER

Discrete Mathematics

Semester 3 Academic Year 2022

Time: 3 Hours Max Marks: 70

Instructions

1. Answer all questions. 2. Assume suitable data if required. 3. Draw neat diagrams wherever applicable.

Part A ($10 \times 2 = 20$ Marks)

1. Brief question on Discrete Mathematics.
2. Brief question on Discrete Mathematics.
3. Brief question on Discrete Mathematics.
4. Brief question on Discrete Mathematics.
5. Brief question on Discrete Mathematics.
6. Brief question on Discrete Mathematics.
7. Brief question on Discrete Mathematics.
8. Brief question on Discrete Mathematics.
9. Brief question on Discrete Mathematics.
10. Brief question on Discrete Mathematics.

Part B ($5 \times 6 = 30$ Marks)

11. Explain an important concept of Discrete Mathematics with examples.
12. Explain an important concept of Discrete Mathematics with examples.
13. Explain an important concept of Discrete Mathematics with examples.
14. Explain an important concept of Discrete Mathematics with examples.
15. Explain an important concept of Discrete Mathematics with examples.

Part C ($2 \times 10 = 20$ Marks)

16. Design and analyze a comprehensive solution related to Discrete Mathematics.
17. Write detailed notes on advanced topics in Discrete Mathematics.
