

StudyHub - Semester 2 Syllabus

Bachelor of Technology (Engineering)

Demo syllabus for portfolio purposes.

Subjects

- MA102 - Engineering Mathematics II
- CH101 - Engineering Chemistry
- CS201 - Data Structures
- EC101 - Basic Electronics Engineering
- ME102 - Engineering Mechanics
- ES101 - Environmental Science
- CH151 - Chemistry Lab
- CS251 - Data Structures Lab

Course Outcomes

Students build foundations in mathematics, chemistry, data structures, electronics, engineering mechanics, and environmental science while strengthening practical programming skills.

Recommended Books

1. B.S. Grewal – Higher Engineering Mathematics
2. Seymour Lipschutz – Data Structures
3. Morris Mano – Digital/Electronic Fundamentals
4. Engineering Chemistry texts
